Over 30 Years Experience

JILONG is an export-oriented manufacturer of plastic leisure products with over 30 years of experience in R&D, high-quality manufacturing and worldwide sales. Sincerity, Practicality and Innovation has always been our business philosophy. All JILONG Manufacturing facilities are located within specially designated development zones which offer very favorable tax policies, utilities, new up to date infrastructure, and most importantly the major portion of our workforce originates in this zone, therefore lowering employee turnover, increasing a skilled retainable workforce. 100% of JILONG's capacity both manufacturing and component sourcing, is located within 300km of the Shanghai region. In house mass production for PVC sheets, flocking, lamination, printing, welding, filter pumps, metal frames and accessories provides production cost control.

- VERTICALLY INTEGRATED

JILONG completes a vertical chain from producing raw materials to end products. JILONG owns production lines of PVC film, silkscreen printing, high-frequency welding, sewing, and packing.

- WORLD WIDE VISION

JILONG products reach customers including global retailers in more than 50 countries in Europe, North America, Australia, and Asia, etc. With 6 subsidiaries worldwide, we are one of the major suppliers of plastic leisure products globally.

- CREATIVE IDEAS

JILONG's R&D team innovates hundreds of new products every year with superior design, Quality and environmentally-friendly compliance. Requirements of the global market and safety regulations are closely monitored. Various technical parameters of each new product have been tested and verified by the internal professional lab.

Our company always promotes internal management and staff training in strict accordance with the management norms and work standards of professional organizations such as regulatory authorities and industry associations, and has already obtained relevant certifications.

PRODUCTS AND BRANDS

SAFETY & QUALITY

EUROPE

- REGULATION (EC) No 1907/2006 “concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)”
- DIRECTIVE 2011/65/EU “on the restriction of the use of certain hazardous substances in electrical and electronic equipment(ROHs)”
- DIRECTIVE 94/62/EC “on packaging and packaging waste”
- 2014/30/EU “ Electromagnetic Compatibility Directive”
- 2014/35/EU “ Low Voltage Directive”
- DIRECTIVE 2012/19/EU “ Waste electrical and electronic equipmeng (WEEE)”

NORTH AMERICA

- UL 1450:2010 Ed.4+R:04Sep2019 Motor-operated Air Compressors, Vacuum Pumps, and Painting Equipment
- CSA C22.2#68:2018 Ed.8+U1 Motor-Operated Appliances (Household and Commercial) (R2019)
- AS/NZS 4417 Regulatory Compliance Mark(RCM)

QUALITY ASSURANCE

The entire production process adopts a traceable management mode, and records and image acquisition are carried out in the incoming inspection of raw materials, the testing of key controlled substances, product durability experiments, online quality supervision, finished product inflation inspection, shipping and loading containers, etc., to ensure ensure the delivered products could meet the safety requirements and the products are authentic and reliable.

CONFIDENTIAL

We maintain good cooperative relations with some well-known testing institutions, grasping/ and grasp the latest changes in safety regulations to ensure that our products could comply with the laws and regulations of various countries where they are sold, so as to protect the life and property safety of consumers.

SUPPORT

- Most of the products are equipped with instructions to guide consumers to use the product correctly.
- Jilong has established an online information access platform. Consumers can quickly check and download e-manuals and review FAQs of related products by logging on to our website.

Step 1:

Login website:
<http://www.avenlihome.com>

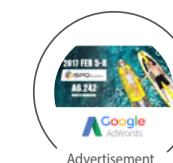

Step 2:

Select corresponding information according to product categories

Step 3:

If Manual & FAQ is not helpful, please send email to info@jilong.com

SALES AND MARKETING

- We have over 30 years of experience in inflatable industry to support our global partners.
- We are constantly upgrading our packaging, sales promotion material, product manuals and other sales tools to service customers around the world, including big retail-chains, internet sellers, distributors, independent shops, etc.

PACKAGING

“ Packaging has a huge impact on consumers’ shopping attitude, so we strive to design the most attractive and unique packaging styles to continuously enhance the cohesion and image of our brand. We take packaging as a part of the product, and in multiple products of different categories and series, each packaging style has its own characteristics, highlighting our great advantages in design and image, and providing our sales a competitive advantage. Our packaging is aimed at stimulating sales by constantly surpassing ourselves and increasing our appeal, which is why we can continuously improve and ensure part of the success of our sales strategy.

TECHNOLOGY

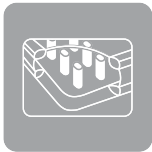

CONSTRUCTION

The most supportive air mattresses offer coils (Coil-Beam Structure) or vertical air chambers (I-Beam Structure) inside. These chambers evenly distribute weight so the mattress doesn't sag or move throughout the night.

Comfortable Firmness
Contour to Body Shape.
Natural Spinal Alignment.
Better Blood Circulation.

avenli

Coil-Beam
Structure

- If you prefer to sleep on a softer airbed, Coil-Beam Structure Airbed is much suitable for you.

SOFTER

I-Beam
structure

- If you prefer to sleep on a harder airbed, I-Beam Structure is your best choice.

Technology

TECHNOLOGY

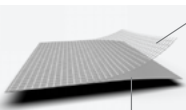

MATERIAL

TEXTECH™

The cloth lamination material of **TexTech™** technology is used only on Avenli Professional series of mattresses and is used in the the production of the bottom and the periphery of inflatable mattresses. Due to the three superior characteristics of the material itself, it can greatly improve the durability and product grade.

Features:

- Fabric coating, Smooth, Surface
- 2-ply laminated vinyl, Abrasion Resistant
- Supportive for comfort

Fabric coating PVC
Use as Outer Cover

avenli

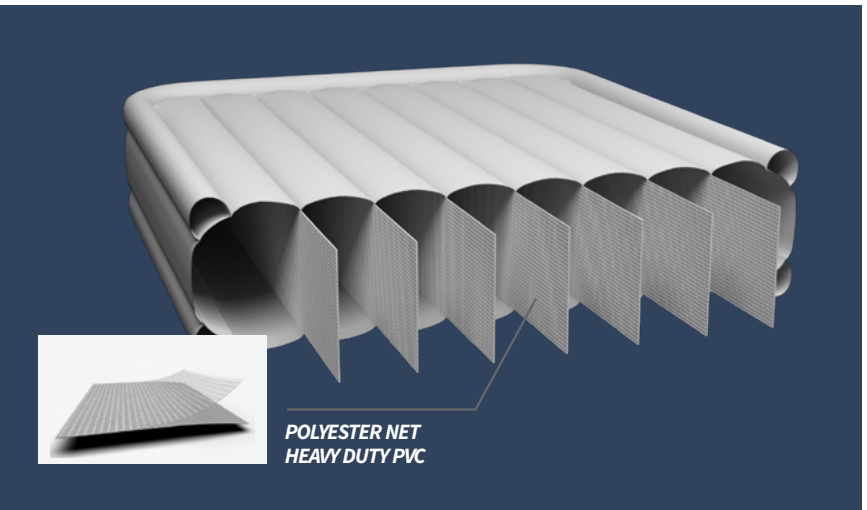

LAMI-TECH™ BEAM MATERIAL

BRING YOU EVERY WONDERFUL NIGHT!

LAMI-TECH™ material is derived from the perfect combination of high-strength polyester fiber cloth and PVC. High-strength polyester fiber cloth will not stretch over time, providing AIRBED with excellent support and longer-term comfort.

Features:

- Super stretch-resistant
- Air Pressure decrease slower
- Supportive for comfort

TEXTech™ TECHNOLOGY

HIGH-RAISED FLOCKED AIRBED
WITH BUILT-IN ELECTRIC PUMP

- Avenli's Professional mattresses are made of innovative materials of TexTech™ technology, the bottom and the periphery of inflatable mattresses are reinforced for improving the durability of the product And to enhance more comfort, the mattress surface is designed with double-layer structure and wave pattern to keep the mattress moderate. Meanwhile, we have adopted a more advanced " auto stop inflation" built-in pump to make inflation and deflation more quickly and more conveniently.
- Contents: 1pc airbed, 1pc carry bag, manual, repair patch

CAMPING

CONFIDENTIAL

Come and experience the soothing journey of the fragrance series of Avenli. Such a wonderful feeling! This series takes the use of “White Tea” and “Chamomile” fragrances to please you and help you fall asleep more easily. It also adopts “Direct Penetration Materials” technology to maintain the fragrance for a longer time. The smell has a good sleep aid effect. Besides, it can also make your journey rest more comfortable and relaxing and attracts others’ attention at the first sight. “White Tea” Scent Travel Items will be arrived soon.
